

## Amendment to the Announcement

After further consideration and consultation with the Skate Canada Saskatchewan Board of Directors, skaters registering for Synchronized Skating Events at the 2020 Winter Classic Competition presented by Visit Moose Jaw are no longer required to enter the Element Event.

The Synchronized Skating Assess to Standard categories (Beginner I, Beginner II, and Elementary) are designed to introduce young figure skaters to competitions. The philosophy of this competition system is based on the principles within Skate Canada's guide to Long-Term Athlete Development. Many of the skaters competing in these categories have not achieved the minimum qualifications to compete in an Element Event; therefore it was decided to remove this requirement from the previously distributed announcement.

Please forward any questions to the Technical Representative, Darren Bogle.

Thank you,

Darren Bogle
